DESIGN SERVICES – QUESTIONS & ANSWERS**

JN 107189

Question 1: Is there a conceptual design prepared for the project that the cost estimate for the work was based on? Could this be provided?

Answer 1: Conceptual drawings can be found at the following link: <http://www.cityofinkster.com/Community/DDA/TransportationEnhancementGrant.htm>

Question 2: Do the brick pillars and fencing extend the full length of the 1.026 mile project or are they only being used at the intersection?

Answer 2: The brick pillars and fencing will be used at the intersection of US-12 and Inkster Road.

Question 3: Is there any curb or road work included in the project other than to accommodate new curb ramps?

Answer 3: The curb or road work included in the project will be to accommodate the ADA sidewalk ramps and the concrete bus stop pads.

Question 4: Will there be any changes to drainage and storm sewers required as part of the project?

Answer 4: There will be no changes to drainage and storm sewers as part of the project.

Question 5: Should irrigation be included as part of the project?

Answer 5: Irrigation will not be included in this project.

Question 6: Are there TE grant dollars included in the project?

Answer 6: Yes, TE grant dollars are included in this project.

Question 7: Is there ARRA funding for this project?

Answer 7: No, ARRA funding will not be included in this project.

Question 8: What will be the process for involving Inkster in the design approval, or has a design already been approved?

Answer 8: The City of Inkster will be reviewing the design as part of the project coordination.

Question 9: What responsibilities will the consultant have in regards to the easements and working with MDOT Real Estate?

Answer 9: The City of Inkster will be responsible for securing the easements.
