

## **SCOPE OF SERVICES**

### **INTELLIGENT TRANSPORTATION SERVICES – QUESTIONS & ANSWERS No. 3**

West Michigan Traffic Management Center  
JN 104207A

Question 1: At the video wall location what is the total depth front to back? Is the back accessible?

**Answer 1: Yes, the back is accessible. As shown on sheets 8 and 9 of the construction plans (Attachment A), the video wall has an access room behind it. The dimension from drywall to drywall in this room is approximately 55 inches.**

Question 2: In the Consultant/Vendor guidelines, it states... The prime consultant/vendor is responsible for the successful completion of the service and is expected to perform at least 40 percent of the services, by dollar value, not including direct costs, required on the service, unless otherwise specified in the RFP. Does this apply to this RFP?

**Answer 2: Yes. This applies to all projects. The prime must perform at least 40% of the work, not just be responsible for it.**
